- JavaScript
- jQuery
- SASS
- Ruby on Rails

- Responsive Design (RWD)
- AJAX
- Browser Support (old IE)

- CSS3
- HTML5
- Mobile

TECHNICAL ACCOMPLISHMENTS:

Spearheaded all front-end development for popuppantry.com: I implemented an Ajax heavy Python application for there online retail platform, as well as SASS and Media Queries to create a responsive, mobile first site.

Developed UI/UX for accounting based web applications at Music Reports Inc: here I integrated code based graphics and jQuery to build web apps for clients such as Apple, Sirius XM and Rdio.

Deployed and maintained a Ruby on Rails CMS for a medical non-profit organization. I built out and customized Rails 3, SASS, RWD and jQuery. App uses MySQL, Amazon RDS, Drop-Box and Heroku.

PROFESSIONAL HISTORY:

OWNER/DEVELOPER   **Collyer Design LA CA. 04/2008 - Present**
I provide CMS solutions for small business owners by coding and deploying HTML5, CSS3, and JavaScript for mobile first and responsive front end design, while utilizing MySQL and PostgreSQL for database structure, supported by Ruby on Rails.

FRONT END ENGINEER   **Pop-Up-Pantry Hollywood CA. 08/2012 - 01/2013**
Built AJAX driven JavaScript to enable RWD with SASS, as well as Remote Git-Hub process. I was also responsible for weekly feature deployments to drive relevance and usability in the fast paced and ever changing online retail arena.

UI/UX DEVELOPER   **Music Reports Inc. Woodland Hills CA. 07/2011 - 08/1012**
I developed comprehensive, user-friendly UI/UX solutions for clients (Apple, Sirius XM, Pandoroa, Rdio, and many more). I also wrote, tested, and deployed HTML5, CSS3, and jQuery.

FRONT END DEVELOPER   **todaysfuneralhome.com LA CA. 06/2009 - 07/2011**
I developed an all inclusive website solutions for funeral home business owners utilizing Ruby on Rails to create a CMS enabling clients to manage their business website. I was additionally responsible for all front-end development and design.

GRAPHIC DESIGNER   **New Sign Co. Gulf Breeze FL. 03/2006 - 09/2008**
Graphic Design and website management. Here, I created graphic and web solutions for small business marketing needs.
